C&K PLASTICS Pennsylvania

Profile Extrusions Division

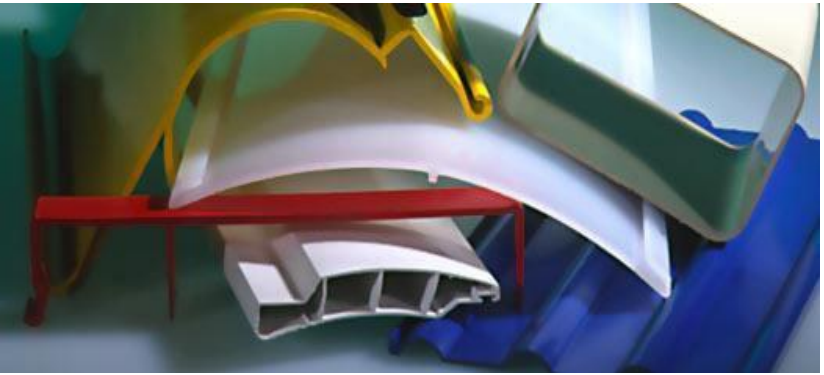
About C&K Plastics Pennsylvania

Since 2002, C&K Plastics Pennsylvania has created specialized extruded components for demanding clients.

From design to delivery, prototypes to full production, C&K Plastics Pennsylvania guarantees products that are on time and in spec.

With our broad technical abilities, material knowledge, and inline/offline services, Valley delivers even the most demanding extruded profiles.

About C&K Plastics Pennsylvania

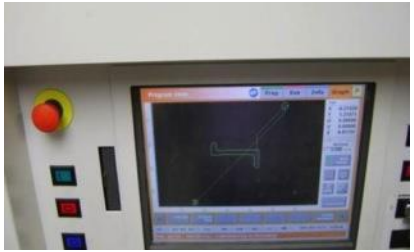


- 200,000 ft^2 cutting-edge facility in Allentown, Pennsylvania
- 16 extrusion lines
- 24-hour operation
- 130+ years of collective extrusion experience among core managers

Industries

- Refrigeration
- Lighting
- Medical Equipment
- Furniture
- Telecommunication
- Aerospace
- Water Treatment
- Modular Building Dividers
- Safety Products
- Agricultural Feeders
- High Power Insulators
- Food Service Accessories
- Signage
- Military
- All-Terrain Vehicles

In-House Tooling and Engineering



- Design assistance
- Material recommendations
- AutoCAD
- High-speed wire EDM technology
- Precision tooling
- Benefits:
  - Complex tool development
  - Fast turnaround times
  - Flexible schedule

Materials Expertise

- Acrylic
- ABS
- HDPE
- HIPS
- HMWPE
- NORYL™
- Flexible PVC®
- Rigid PVC
- PET
- PETG
- Polycarbonate
- Polypropylene
- Santoprene™
- TPE
- TPO
- TPU
- Nylon
- PE
- Surlyn®
- Hytrel®

Capabilities: Production

- Custom tubing
- Precision profiles
- Fabrication and fulfillment

Capabilities: Extrusion

- Co-extrusion
- Tri-extrusion
- Complex hollow shapes
- Large, wide parts
- Standard and custom tubing

Thank You
